**Zack Shelton**  
**Conspiracy Theory - JFK Assassination**

11:30-1 pm  
Friday, January 29, 2016  
\$22 lecture/luncheon  
Register by January 22

Retired Special Agent Zack Shelton will give details of his interviews with two other FBI agents who were present at the President's autopsy that night at Bethesda Hospital, as well as his conversations with "James Files," a man who claims to have fired a shot on the grassy knoll and worked for both the Mafia and the CIA. Shelton, who retired from the FBI in 1998, was the source for the tip on James Files. Shelton called upon and received the assistance of over eight of his veteran FBI colleagues. Since Shelton worked in the organized crime squad at the FBI, he was in a position along with the other agents, to have access to thousands of classified documents allowing him leads many Kennedy assassination researchers dream of obtaining. Shelton traveled throughout the country interviewing Mafia associates, CIA associates and witnesses present that day in Dallas.

Dr. Fernando Casas  
**Life and the Cosmos**

1-3 pm  
February 28 and March 6, 2016  
\$40 lecture series (two)  
Register by February 21

Lecture I: How did the Universe Begin? In this lecture we will examine the central concepts of contemporary cosmology, such as the big bang, inflation, the expansion of universe, parallel universes, dark matter, and dark energy.  
Lecture II: The problem of the origin of life. In this lecture we will examine the enigmatic appearance of life on earth. We shall inquire into what makes life so special and why it has proven so difficult to explain.
